8 June 1972

What you do in analysis is

Tell the reader what the event under discussion means--what its significance is

Answer the natural questions that arise

Provide related facts and background information

Explain why the event ~~has~~ occurred

Indicate, if appropriate, whether it fits into a trend

~~Indicate~~ ^{Suggest} the probable consequences of the event--the impact.

What it means for the problem involved, for the parties involved and the positions they take. How it will affect the US. In other words,

~~In the process, suggest~~ ^{estimate} what is likely to happen next.
